Marbella Center

A very important factor for our client was to have all the commodity of modern materials and latest technology of a smart home, but with a warm shabby-chic style for the furniture.

We stripped all floors, old wall tiles and mouldings, and opened up the kitchen and dining into an open plan space to the lounge. We installed underfloor heating and sourced a beautiful barn-wood floor from Holland throughout the apartment. To give the space a contemporary look, we built false ceilings with indirect lighting, and added lower recessed wall lights for a romantic effect. This immediately changed the aesthetics of the outdated space.

In the kitchen, the beautiful honey-comb-shape floor tiles cut impeccably into the barn wood floor coming from the lounge, became the landing space for the stunning kitchen which we had installed by Clive Christian.

Ambience was commissioned to design, refurbish and furnish a 3-bedroom, frontline beach apartment in Marbella. The apartment was very rundown, dated and dark.

Marbella Center

Our vision was to create a welcoming interior
and it was all about making it spacious, light,
fresh and in harmony with the great sea views
the property had to offer.
