Puente Romano

Andrea Böck, Managing Director of Ambience Home Design, explains: “The property consists of three storeys and a basement. Once we had the main distribution and layout right, we began with the interior design of the various spaces. Our client’s request was to achieve an elegant yet masculine interior reminiscent of a James Bond mood setting, and furthermore maintain the spaces light and fresh to keep it contemporary. We designed French wall panels in some of the rooms to define that look and used other materials such as Calacatta Gold Marble, Black Marquina marble, aged brass, etc. to contrast. A beautiful fish-bone floor was our choice throughout.”

Du- ring BUILDING PROCESS

Puente Romano

There were various architectural design tasks that were commissioned by the team, such as to design feature fireplaces, the ceilings and light effects, all wardrobes and doors to be designed and manufactured to spec, as well as to design all bathrooms and bar area in the basement

Puente Romano

We were very happy to see our client's reaction when he saw the conversion of his villa; it also space shows that even the most dark and gloomy properties can be turned into a beautiful home..
