INTRODUCTION

Ambience is a multiple award-winning and market-leading interior architecture firm that brings creative, inspirational residential and retail projects to life around the globe. The luxury brand provides a tailored approach and hands-on service, with a commitment to the detailed execution of our clients' briefs and desires.

Our collective experience encompasses architecture, all aspects of interior design from international homes, world class hotel developments and hospitality projects, through to furniture, lighting, product and accessory design.

BEHIND THE SCENES

Andrea Böck, a German-born interior designer and curator who founded Ambience in 2002.

Her unequivocal taste for contemporary and luxurious interiors has established Ambience as the leading interior design firm on the Coast.

Andrea's creative eye and attention to detail, and her passion for both décor and refurbishment projects, are equally matched by the experience and know-how she's acquired throughout many years of dedication to the field. Her commitment to the design for life concept has been a cornerstone of Ambience's international success and expansion.

Since 2005, Andrea and her team have been commissioned to work on international luxury projects in the UK, Belgium, The Netherlands, Germany, Egypt, China and St. Lucia. The firm additionally has ongoing projects with renowned architects and developers in Spain and abroad.

OUR COMMITMENT

We are experts in Turn-key projects. Our in-house team of professionals takes full control of the entire process- from initial conceptualization, right through to Interior Architecture & Interior Design, full project management during building phase and the placement of the last piece of furniture. We meticulously plan every design aspect of your home - from the entire Interior Design and furniture concept, kitchens, bathrooms, fireplaces, wardrobes, floors, etc. down to the smallest details such as stunning handles and hinges, matched to perfection with the rest of your interiors in order to achieve the desired outcome.

What outcome do we wish to achieve? Why not answer this question with adjectives that have been used to describe us, alongside those we like to use ourselves:

**Alluring.Provocative.Elegant.Exquisite.
Quality.Unpredictable.Graceful.
Ravishing.Permanent. Luxurious.
Subtle.Timeless.Smart.Discreet.
Intriguing.**

CONCEPT DESIGN

The first step in the process is for Andrea and her team of designers & architects to liaise with the client to ascertain their intentions and aspirations for the property and to comprehend their individual needs and lifestyle choices.

There are no limits on what we design or who we design it for. Our influence is never static, typical or predictable. Each project grows from ideas that have been bend in an array of directions and reconfigured into a cohesive whole. Convenience is never the driving force behind our decisions; the design itself and our clients' needs are the pillars on which our work stands. A solid, outstanding idea is born of an initial state of 'creative chaos'.

Design for life is a concept that arises from time and dedication. It cannot be 'forced' with a push of a button nor can creativity be replaced by technology. Our aim is to create long-lasting design while building long-term relationships with our clients.

OUR KNOWLEDGE

Our 26-strong team consists not only of creative, thriving, knowledgeable Designers and Architects and highly motivated, meticulous Project Managers, but also of a sizeable Logistic and installations Team with only one goal in mind - to meet strict deadlines. We work together and bounce ideas off each other to create a richly based, cohesive idea. A single object or detail arises from and infinite array of references which ignite the spark that sets a process in motion or lends the project a touch of the sublime.

We work with carefully chosen craftsmen for our bespoke furniture as well as for our construction sites, relentlessly sourcing new international providers and partnering with the best furniture, lighting & accessory brands. We believe that synergetic partnerships are the key to the steady growth of our company and our international success.
